

# Tough case?

## Are you working with a child who:

- is eligible for services from the Board of Developmental Disabilities?
- needs help planning for his or her transition to adulthood?
- is receiving help from multiple public systems?

Some families have complicated needs.

You have a resource to help with your toughest cases—those clients who are involved in multiple public systems, who have tried various options and are still struggling.

Get new ideas or resources by calling your agency's Service Coordination Team liaison, or the Family & Children First Council's Service Coordination Specialist.

Cuyahoga County staff and supervisors may access this team of county system experts for free.

## When you need help helping others, call your agency's liaison:

Call a Service Coordination Team liaison for advice or new resources for your clients with intense, multiple-system needs.
